

6-150 Slam Latch

RoHS
WEEE

Advantages

- The slam latch for aluminium profiles.
- 2-parts: door-part and frame-part.
- This door-part catches the slam-bolt and is also the limit stop for the frame-part.
- Due to oblong holes, different profile widths can also be used.
- Gently pulling the handle will disengage the slam-bolt.
- A gentle push will latch the door.
- All lockable slam latches are supplied with 2 keys.

Materials

- **Handle, door- and frame-part:** zinc die, chrome plated or black
- **Bolt:** zinc die, untreated
- **Tenon nut:** steel, zinc plated

Remarks

1. 4 tenon nuts M6 are included in scope of delivery
2. open
3. opened
4. close
